Profile

Hardworking and enthusiastic College Student working towards a Bachelors in Information Technology. Seeking to use my superior knowledge of Technology and my advanced Communication Skills to effectively serve your company in a position. Dedicated, hardworking, and committed to becoming a dependable and valuable team member.

Employment History

Mobile case sales assistant, Geelong

DECEMBER 2020 – FEBRUARY 2021

Being friendly with customers. Organizing cases, mobile guards. Resolving any issues or inquiries with customers. Maintaining restock regularly. Preforming multitasks like- assisting two customers at once with their desired needs.

Seven Eleven Team Member, Geelong

JUNE 2021 – NOVEMBER 2021

My duties as a Seven Eleven Team Member was to stock/refill things, handle clients professionally and cheerfully, check for expired items, maintain a high degree of sanitation, and be prepared for any emergency.

Jims Cleaning Team Member, Geelong

DECEMBER 2022 – JULY 2023

My job as a member of Jim's cleaning crew was to greet clients with a smile. Some of the duties I had were - Vacuuming , mopping, scrubbing, wiping, spot cleaning of glass and windows, replenish dispensers, and dump garbage from floors, rooms, restrooms, and kitchen. I also had to use the proper chemicals and equipment, as well as exercise extreme caution while cleaning fragile or expensive items. While cleaning, be certain that all safety precautions are taken; and reporting of any damage to objects while cleaning.

Education

Cert IV, Swinburne University, Melbourne

MARCH 2021 – DECEMBER 2021

I studied Cert IV of Information Technology and learned basic concepts of Technology such as languages like JavaScript, C#, SQL as well as .NET, and Angular like frameworks. I also learned basics of Waterfall Methodology and project planning.

Diploma, Swinburne University, Melbourne

MARCH 2022 – DECEMBER 2022

I studied Diploma of Information Technology (Advanced Programming) and learned advanced level concepts of Technology such as servers, stacks, full stack apps/frameworks. I worked in several projects and one of them was for a client. I was part of a team that built a donor system with PayPal, ReactJS, Firebase, ExpressJS, and Agile approach.

Bachelors, RMIT City Campus, Melbourne

FEBRUARY 2023 – DECEMBER 2025

Currently, I am studying Bachelors of Information Technology in my first year.
